***Allowable Subject Matter***

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art shows in various documents, first and second piezoelectric resonators with first and second, and, third and fourth opposing electrodes on the piezoelectric surface. The prior art also shows layers of alternating materials of first and second acoustic impedances, made of materials which meet the applicants' claimed ranges. The novelty however, which is not shown nor suggested by the prior art, is that only one of the resonators of the invention are arranged with these layers of alternating materials of first and second acoustic impedances.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited shows the state of the art.

Direct inquiry to Examiner Dougherty at (571) 272-2022.
